

Comanche Peak Volunteer Opportunities

Little Opportunities:

- 7 Informational signs to hold newly identified growth information
- check surplus materials at plant for use on entry steps and informational signs **Randy and Bill D**
- 3 additional directional signs (maybe just arrows) directing folks to and from the lower trail
Dayna
- Clipping above and raking below on the trail to keep it clear of falling limbs and new growth.
- Clearing a path to the prickly pear stand done
- Clearing around the gathering stations to make benches accessible
- Repair the roof of the information booth **Maryann**
- Roundup the poison Ivy and oak- sticker grass **Randy**
- Mulch for the trail **Randy and Gary will be discussing this**
- Trail maintenance and design work **Scott**

Big Opportunities:

- Clearing /scraping the walking trail
- Identifying large stumps that can be cut and used for posts or braces for constructed items
- mulching the nature trail
- Making better use of the “wildlife habitat” area (tracks, rainwater feature, harvester ants sign)
Dayna and Katie will be working on this
- Installing a rainwater barrel or making use of water from either Oncor or the radio tower **Randy**
- Sign for the Street so people can find the trail **sign installed at parking area, Randy working on street sign**
- Creation of new brochure with updated information **Maryann once we get updated flora information**
- Steps up to trailhead need to be redone **Bill D, Randy**
- Identifying plants from yesterday’s walk not previously identified **Gary**
